Municipal Finance Law Since 1971

MSRB Publishes New Guidance and Educational Resources about State and Local Government Financial Disclosure.

The Municipal Securities Rulemaking Board (MSRB) today published an advisory and set of guides to help issuers of municipal bonds better understand the types of information they must publicly disclose and how to use the MSRB's Electronic Municipal Market Access (EMMA®) website to make these disclosures. The advisory also highlights the role of EMMA as the central repository for continuing disclosures on municipal bonds and the benefits of timely and complete disclosures for issuers and investors alike.
