TE/GE Memo Limits Types of Cases Transferred for E/O Processing.

The IRS Tax-Exempt and Government Entities Division has issued administrative guidance (TEGE-07-0414-0009) limiting the types of cases and issues that are transferred to the Exempt Organizations Technical Unit for processing, including cases involving optional expedited processing for section 501(c)(4) applications. Generally, some cases, including cases without established precedent, cases with significant regional or national impact, technical advice cases, and technical assistance requests, have been transferred to the technical unit for processing. Also transferred have been cases involving the interpretation of a treaty or international agreement, Canadian Treaty Organization determinations that involve unprecedented or novel issues, and specific cases with potential terrorist connections.

As of April 8, 2014, the guidance limits the transferred case types to applications under section 501(c)(3) from hospitals subject to requirements under section 501(r); some applications under section 501(c)(4) on optional expedited processes; and some technical assistance requests.
