## **CDFA Webinar Series: Financing Green Energy on Brownfields.**

CDFA is excited to announce the CDFA Brownfields Financing Webinar Series as part of the CDFA Brownfields Technical Assistance Program. Brownfields redevelopment financing solutions are increasingly sought across the country in order to restore contaminated sites and/or to return abandoned industrial land to productive use. The cleanup and redevelopment of brownfield sites can advance a region's economy, restore the local environment, and ultimately lead to permanent job creation and greater attraction of external capital to the community.

The series will include three 90-minute webinars over the year and will focus on effective utilization of brownfields and redevelopment financing tools, while highlighting best practices, case studies, and CDFA's technical assistance program participants. This series is designed for professionals who work directly with brownfield sites as well as economic development professionals and communities interested in shaping programs to enhance redevelopment financing opportunities.

### **Brownfields Financing Webinar Series: Financing Green Energy on Brownfields**

**January 14, 2016 @ 2:00 PM EST**

Join CDFA, US EPA, and experienced brownfield communities as we discuss the potential behind using brownfields as sites for renewable energy generation, the unique financing tools available for these projects, and the potential benefits for impacted communities and energy developers.
