Blending Capital: How Impact Investing Can Advance Economic Development Finance.

Blending Capital: How Impact Investing Can Advance Economic Development Finance

December 15, 2015 @ 1:00 pm Eastern

CDFA has jointly partnered with the Initiative for Responsible Investment and Mission Investors Exchange to explore the potential for alignment between foundations and traditional economic development finance agencies. How might small investments from foundations be made in existing and proven development finance programs to leverage or advance social, community, and economic priorities? During this installment of the CDFA // BNY Mellon Development Finance Webcast Series, learn about a new research initiative at CDFA and hear our expert panel discuss how partnerships can be developed to create guarantees, credit enhancements, or capital access programs with foundation-related impact investments through state and local development finance agencies.

Moderator

Rena Nakashima
