Financial Reporting for Income Taxes: Rate-regulated Utilities

Thursday, March 31 | 8 a.m. - 4:30 p.m. (Day 2)

This one-day course focuses on the specific issues in accounting for income taxes for rate-regulated utilities. This course focuses on flow-through accounting, how utilities may account for changes in tax rates, accounting for investment tax credits and US Treasury grants, and book/tax differences that may result in tax-related regulatory assets or liabilities. During the session, we'll discuss examples involving computations and journal entries in order to illustrate the effects of ratemaking on the financial reporting for income taxes, as well as the effects of accounting for income taxes on ratemaking. Topics to be covered are:

- Industry overview—regulatory perspective
- Normalization vs. flow-through accounting
- Changes in tax rates—excess deferred income taxes
- Investment tax credits and treasury grants
- Allowance for funds used during construction
- Normalization requirements and violations
- FERC-GAAP reporting differences
