Black & Veatch: 2017 Water Industry Report.

Water providers are increasingly focused on sustainability and integrated planning to help solve the years-long conflicts between aging infrastructure and a safe, resilient water supply. Black & Veatch's [2017 Strategic Directions: Water Industry Report](#) analyzes how political leadership and collaboration can overcome concerns about costs and customer demand. The report also explores how data analytics, consumer education on infrastructure modernization and a more comprehensive view of sustainability are helping water utilities gain ground on these challenges.
