CDFA Launches Federal Financing Webinar Series.

CDFA Launches Federal Financing Webinar Series
— New Series to Highlight Federal Agency Programming —

The CDFA Federal Financing Webinar Series is an exclusive, five-part online offering that will convene finance experts, federal agencies, and local practitioners to discuss the development finance programs offered by the federal government. The webinar series is designed to offer participants a thorough overview of the development finance tools offered by federal agencies, with an emphasis on valuable programs that are often overlooked.

The CDFA Federal Financing Webinar Series is a 5-part offer available throughout the year. Each webinar will include in-depth examinations of specific financing programs offered by a federal agency along with program details, advice on applying, and examples of successful program implementation. Participants are encouraged to bring their project questions for our expert panelists, as they work to demystify the federal government's myriad financing options.

Those interested in attending the series can register for each webinar individually or all at once as a package deal. CDFA recommends registering for all of the webinars at once to take advantage of the best available pricing.

The webinar series will focus on the following agencies:
