The Baltimore Cyberattack Highlights Hackers' New Tactics.

Ransomware attacks are becoming more sophisticated and taking longer for governments to recover from. Some of Baltimore's services have been down for nearly a month.

SPEED READ:

- Baltimore suffered a ransomware attack nearly a month ago and has yet to restore critical networks.
- The city refuses to pay the hackers and is asking the federal government for financial aid.
- Ransomware attacks on governments are on the rise — and becoming more sophisticated.

Cyberattacks on local governments are on the rise — and they're becoming more sophisticated. The latest case in Baltimore, where the city is still struggling to restore critical networks more than three weeks after being hacked, could be a harbinger of things to come.
