Financing Essential Infrastructure: NLC 2023 Municipal Bond Market Update

Municipal bonds are the crucial tool cities use to finance essential projects — accounting for nearly 70% of all financing for public infrastructure like roads and water and sewer utilities. On **Monday, September 25 at 2:00 p.m. ET**, join NLC, Build America Mutual and market experts for an update on trends in the market and what city leaders should focus on when preparing to sell bonds.

The session will also highlight recent innovative transactions, like how the State of Connecticut was able to save \$200 million when it set up a trust fund to provide “baby bonds” for all Medicaid-eligible babies born in the State.
