Overview of Public Procurement: GFOA Webinar

Procurement is an essential function for all governments and serves to provide service that connects public sector operations with private sector suppliers, contractors, and providers. High performing procurement functions not only support government's responsibility to use resources effectively, they also promote efficient operations, reduce business continuity risk, and work to maintain trust in government. Unfortunately not all organizations utilize procurement to its full strategic potential. In this course, instructors will cover the basics of public procurement, provide an overview of key processes and policies, highlight important features and tools of modern procurement functions, and explain how the profession is evolving to better meet the needs of governments.
