\$2.2B in Resiliency Grants Awarded to Upgrade the US Electric Grid by DOE - Duane Morris

On August 6, 2024, the U.S. Department of Energy (DOE) [announced](#) the first 8 selections for the 2nd round of the Grid Resilience and Innovation Partnership (“GRIP”) funding specifically for the “Grid Innovation Program”, one of three GRIP funding mechanisms. T

Per the DOE, through the second round of GRIP funding, the Grid Innovation Program will support 8 projects across 18 states, totaling approximately \$2.2 billion in federal investment. Selections for the remaining 2 funding mechanisms should be announced later this year.

California Energy Commission

The California Harnessing Advanced Reliable Grid Enhancing Technologies for Transmission (CHARGE 2T) project is a public-private partnership that is intended to drive large-scale expansion to transmission capacity and improvements to interconnection process to increase and accelerate equitable access to renewable energy across California. CHARGE 2T is supposed to reconductor more than 100 miles of transmission lines with advanced conductor technologies and deploy dynamic line ratings (DLR) to quickly and significantly increase the state’s system capacity to integrate more renewable energy onto the grid. CHARGE 2T also supports transmission interconnection reform through process improvements, an interconnection portal, workforce investment, and educational resource development.
