Continual Engine Collaborates with Colorado Municipalities to Advance Document Accessibility Compliance

AUSTIN, Texas, August 19, 2025 — (BUSINESS WIRE)–States and local governments face increasing pressure to make public-facing documents accessible, but must do so at scale, with limited budgets and internal resources. Colorado municipalities are now turning to PREP, Continual Engine's AI-powered platform, to bridge that gap.

Continual Engine, a leader in AI-powered digital accessibility solutions, has announced a collaboration with municipalities across Colorado to streamline document accessibility compliance. Through this partnership, Continual Engine's platform, PREP (PDF & Document Remediation Platform), is helping local governments to remediate public-facing documents more efficiently and cost-effectively, supporting compliance with Colorado's HB 24-1454 and broader accessibility standards such as the ADA, Section 508, WCAG, updated Title II regulations, and more.
