

Bond Case Briefs

Municipal Finance Law Since 1971

Which states and counties have the highest taxes?

With taxes a hot topic in Washington and around the dinner table in millions of American homes, this analysis features interactive maps that look at how states and counties stack up against one another when it comes to income and property taxes. There is also a map that shows the ZIP codes throughout the U.S. where residents are most likely to use tax software to prepare their returns.

The map is available at:
