Municipal Finance Law Since 1971

MSRB to Offer New Email Reminder Tool for Recurring Financial Disclosures.

The Municipal Securities Rulemaking Board (MSRB) will soon launch a new tool to help issuers of municipal securities keep track of due dates for recurring financial disclosures to the Electronic Municipal Market Access (EMMA®) website. State and local governments and other entities with annual or quarterly disclosure deadlines will be able to schedule email reminders to alert multiple recipients when it is approaching the time to make a financial disclosure submission to EMMA. Look for more information and resources on financial disclosures from the MSRB soon.
