Municipal Finance Law Since 1971

Cyber Legal Seminar: Cybersecurity Law for Financial Institutions.

The Cyber Legal Seminar is a full-day program that will provide attorneys and compliance professionals with insights and regulatory perspectives on cybersecurity law, and how legal and compliance professionals should take an active role in your firm's cyber defense plan.

The seminar will cover current cybersecurity threats, the framework and guidance to best defend against those threats, and the global nature of cyber issues and their cross border legal implications. The speakers and panelists include senior officials from the U.S. Department of the Treasury, FBI, SEC, OCC and other federal regulators, as well as the European Union. You will hear perspectives from senior in-house counsel at banks and broker-dealers, as well as their trusted advisers.

Join us on **Tuesday, June 2, at the SIFMA Conference Center in NYC** for the latest cybersecurity law developments and what role you should take in your firm's cybersecurity program.

CLE credits available.
