CDFA Intro to Public-Private Partnership (P3) Finance Course.

August 11-12, 2015 | St. Louis, Missouri

The Intro Public-Private Partnership (P3) Finance Course examines this emerging development finance model with a focus on how development finance agencies can adopt P3 principles to address a variety of projects. This course will cover basic P3 concepts, key players involved in transactions, asset valuation, contract negotiation, risk assessment, revenue stream development, and feasibility analysis. In addition, several P3 projects from across the country will be presented, and P3 experts will analyze the successful elements in each deal.

Interest in P3 financing is growing as state and local governments face tough budget decisions along with declining federal investment in infrastructure. Several state and local agencies have used P3 to finance real estate developments, schools, parking garages, public transit, affordable housing, water facilities, and more. During the Intro P3 Finance Course, industry experts will discuss the common characteristics and drivers of P3 financings throughout the country and explain the various structures of these deals.

This course qualifies for the CDFA Training Institute's Development Finance Certified Professional (DFCP) Program. Start down the road to personal and professional advancement today.
