Engaging Private Capital to Drive Clean Energy Finance

January 19, 2016

@ 1:00 pm Eastern

In partnership with the U.S. Department of Energy, CDFA is excited to be part of a national trend promoting innovative clean energy financing mechanisms that use public programs to leverage private capital. Adopted by states to spur investments in clean energy, and outlined in the recent Energy Investment Partnership, this trend illustrates how states and local agencies are driving clean energy deployment. During this installment of the CDFA // BNY Mellon Development Finance Webcast, explore how emerging public-private partnerships are raising capital through a variety of means by aligning clean energy finance initiatives and traditional development finance tools to maximize the impact of public funds.
