NABL: House Problem Solvers Caucus Releases Infrastructure Report.

The bipartisan House Problem Solvers Caucus Infrastructure Working Group released its report on infrastructure policy recommendations. The report entitled, “Rebuilding America’s Infrastructure,” calls for, among other things, the preservation and expansion of “tax-advantaged infrastructure financing options by maintaining the federal tax-exempt status for municipal bonds and private activity bonds as well as increasing the private activity bond state volume cap for all infrastructure categories.”

The report is available [here](#).
