Report: Climate Risk, Real Estate, and the Bottom Line

OCTOBER 11, 2018 – BOSTON, MA – Four Twenty Seven & GeoPhy Release First Global Dataset on Real Estate Investment Trusts' Exposure to Climate Change.

Four Twenty Seven and real estate technology company GeoPhy today announce the release of a data product that provides granular projections of the impacts of climate change on real estate investment trusts (REITs). REITs represent an increasingly important asset class that provides investors with a vehicle for gaining exposure to portfolios of real estate. The data was launched at the Urban Land Institute Fall Event in Boston, MA, accompanied by a white paper that lays out the implications of climate risk for the real estate sector.
