EPA Selects 39 Projects to Apply for Water Infrastructure Loans.

FY 2018 Selected Projects

The WIFIA program is inviting 39 projects in 16 states and Washington, D.C. to apply for Water Infrastructure Finance and Innovation Act (WIFIA) loans. Together, the selected borrowers will receive WIFIA loans totaling up to $5 billion to help finance over $10 billion in water infrastructure investments and create up to 155,000 jobs. These loans will allow large and small communities across the country to implement projects to address two national water priorities – providing for clean and safe drinking water including reducing exposure to lead and other contaminants and addressing aging water infrastructure.

View one-page summaries of the FY 2018 selected projects.
