Fitch White Paper: ESG in Credit

In our ESG in Credit white paper, we outline our approach to evaluating ESG risks in all our rated sectors and highlight key trends and patterns.

ESG investing has seen huge growth over the past few years. To provide transparency and robust reporting around how ESG affects credit risk, Fitch Ratings developed an integrated scoring system, ESG Relevance Scores, which clearly displays how ESG factors impact individual rating decisions.

In our **ESG in Credit** white paper, we outline our approach to evaluating ESG risks in all our rated sectors and highlight key trends and patterns.
