Bond Case Briefs

Municipal Finance Law Since 1971

CDFA Publishes New Private Activity Bond Volume Cap Data and Resource Center.

The CDFA Volume Cap Resource Center allows users to search, sort, and compare comprehensive private activity bond volume cap data from all 50 states and the District of Columbia dating back to 2005. As a leader in the development finance industry, CDFA serves as the principal source for private activity bond volume cap data, reporting, and trends.

CDFA collects and analyzes the best available national volume cap data as reported by managing state agencies by surveying and interviewing representatives from each state's volume cap allocating and issuing authorities. The data represents the best available figures as reported by each state to CDFA.

The CDFA Annual Volume Cap Report contains information critical to understanding and evaluating the efficiencies, effectiveness, costs, and benefits of private activity bonds.
