Preparing for Federal Grant Applications: CDFA Webinar

August 9, 2022 | 1:00 PM - 3:00 PM

Applying for federal grants is a competitive process that requires a significant amount of time and planning prior to submission. It is essential for applicants to know how to navigate the available funding sources and prepare the necessary information to apply well in advance. This session will provide guidance and best practices on the various components of a federal grant application. This includes project planning and timeline development, budgeting, establishing partnerships, and conducting the background research and assessments necessary to justify the investment.

Presentations will cover what goes into the market and feasibility studies needed to assess potential outcomes of a specific infrastructure project, as well as different approaches to infrastructure analysis and financial modeling. The panel will also discuss how to identify other sources of funding to align with federal dollars, building on the previous sessions that review the development finance tools available for supporting infrastructure. As the IIJA encourages regional collaboration, speakers will touch on the role of key partners in the application process throughout the discussion and share how advisory services can assist in preparing for funding.
