Municipal Finance Law Since 1971

NFMA DE&I Survey.

The NFMA is conducting important research on diversity, equity, and inclusion experiences within the public finance industry. Along with our partners at Anavi Strategies and PFM's Center for Budget Equity and Innovation, the NFMA is excited to launch a new survey initiative to study these critical issues and share learnings that can help enhance the experience of all municipal market participants.

We are asking you to share your experience, feedback, and opinions on the current and future state of DE&I, both within your organization and within the industry at large. We estimate that thoughtful respondents will need 15-20 minutes to complete the survey.

You can access your survey by clicking this link: [Take our survey](#)

Because this time of year is busy for everyone - but seems to be especially busy for our colleagues - we know your time is valuable. The survey will remain open until January 9th, 2023.
