BAB: The Only ETF In The Taxable Municipal Bond Sector

Summary

- The Invesco Taxable Municipal Bond ETF is the only ETF I found that focuses on the taxable municipal segment of the US bond market.
- Unlike the three CEFs I covered in this segment, BAB gives investors a leverage-free option to invest in. I compare returns between these four, plus corporate bond ETF.
- Based on how BAB has performed against the CEFs and several long-term corporate bond ETFs, the best I can muster is a Hold. A good candidate for tax-loss swapping.
