## Fitch ESG Market Trends 2023 Webinars Series.

**Wednesday, February 22**

**Session 1: 4:30pm HKT/ 8:30am GMT | Session 2: 11:00am EST/ 4:00pm GMT**

Challenging macroeconomic conditions, geopolitical tensions and political polarisation are contributing to increased short-term scepticism about the importance of ESG considerations by corporations, investors and governments, but the long-term outlook for sustainable finance remains solid, according Sustainable Fitch's ESG outlook for 2023.

Join Sustainable Fitch's Research analysts on February 22nd as they share their insights on key ESG market trends for 2023 and latest market developments. We will run two sessions to serve the global audience.

The key topics/trends to be discussed will include:

- Economic and political challenges to test ESG's staying power
- Increased focus on climate pledge follow-through and implementation
- Growing physical risks to drive short-term mitigation strategies
- Emerging markets to benefit from focus on nature and climate equity
- Private and retail investors bring new ESG priorities to capital markets

We look forward to your participation to either of the sessions.
