Water Security in a Changing Environment: MAGNY Webinar

Date: Thursday, May 25, 2023

Time:

Zoom Meeting Time: 12:00 - 1:00 pm ET

Location:

Zoom ONLY

Details:

Increased hydrological volatility has altered the landscape for western region water suppliers. Despite favorable 2023 conditions thus far, the Colorado River remains stressed, prompting potential unprecedented federal actions. This panel will explore potential water right resolutions and what the outcome could mean for water supply in California, Arizona, and Nevada. How will potentially shifting water allocations affect public finance credits in the region and how are highly rated managers responding?
