## **Why it's Time to Rethink Reserves: GFOA Webinar**

**THU, 24 AUG | 1 PM ET**

Governments are subject to financial shocks, including natural catastrophes, recessions, and more. Financial reserves (a “rainy day” fund) are essentially a form of self-insurance that governments use to buffer themselves against these risks. But what are the risks governments should be concerned about and what size of reserves are appropriate to those cover risks?

Speakers in this session will answer these questions and more. Participants will leave with resources and strategies to apply risk-aware and risk-savvy thinking to reserves in their own organizations.
