## **New York City Transitional Finance Authority: Fitch New Issue Report**

The 'AAA' rating on the subordinate future tax-secured (FTS) revenue bonds reflects solid long-term growth prospects for pledged revenue and the bonds' highly resilient structure. Fitch Ratings anticipates that the bond structure will be able to withstand changes in economic cycles and maintain solid debt service coverage. Fitch's analysis indicates resilience would be strong even if New York City leveraged the pledged revenue up to its legally permitted amount, but Fitch expects issuance to be well below that level as excess revenue flows to the city for general operations. A very strong legal structure insulates bondholders from the operating risk of New York City (IDR: AA/Stable).
