Details

Governments that issue debt must comply with numerous federal laws at the time of issuance and over the lifetime of the bonds. That includes various provisions in tax law.

This course will provide an overview of tax laws related to municipal bonds, and the responsibilities of issuers in this process. These include understanding the issue price of the bonds, calculating arbitrage and arbitrage rebate rules, yield restrictions of bond proceeds investments, private use limits, record retention guidelines, and the IRS's Tax Exempt Bond audit program.

The course will also provide tools on how issuers can best comply with these rules, and the types of conversations they should have with bond counsel about these matters.
